U.S. ECONOMIC DEVELOPMENT ADMINISTRATION

to provide EDA with an Annual Scope of Work which encompasses all of the activities that staff will complete. This partnership and funding allows the Planning Commission to dedicate staff to serve the economic development needs and interests of the region. A major focus of the District's Annual Scope of Work is to provide technical assistance to the region's economic developers and leaders who are involved in economic and community development on the local level, including assistance in community strategic planning, grant writing and representing the region at the state and local level.

The Green Hills Regional Planning Commission is recognized by the Economic Development Administration as an Economic Development District and receives planning grant funds on an annual basis. Each year, the District is required

Economic Development

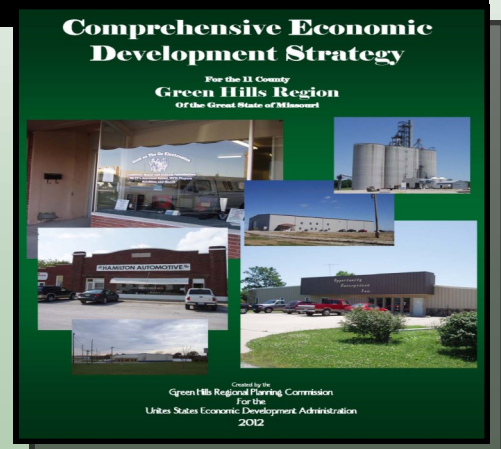

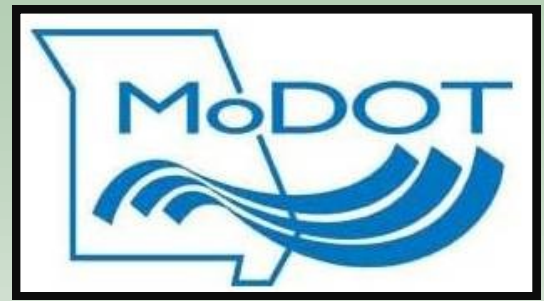

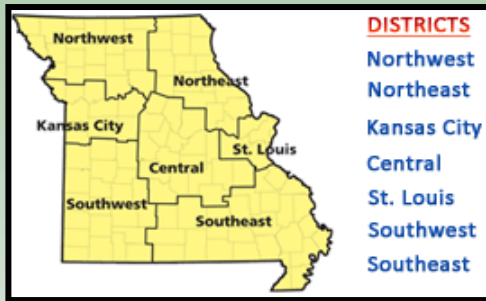

What is a Comprehensive Economic Development Strategy?

- A Comprehensive Economic Development Strategy (CEDS) is designed to bring together the public and private sectors in the creation of an economic roadmap to diversify and strengthen regional economies.
- The CEDS analyzes the regional economy and serves as a guide for establishing regional goals and objectives, developing and implementing a regional plan of action, and identifying investment priorities and funding sources. The document is updated every five years.

*The most recent North Missouri
Comprehensive Economic
Development Strategy can be
viewed online at:*

CEDS%202012.pdf](http://www.ghrpc.org/Documents/CEDS%202012.pdf)

GHRPC continues to serve as the leading voice for regional transportation planning in north Missouri, and remains a steadfast supporter and facilitator of communication between MoDOT and the cities and counties of north Missouri. In support of regional transportation planning, Green Hills and MoDOT work in partnership each year to develop and execute a work plan designed to allow local grassroots input into statewide transportation planning. The Transportation Advisory Committee (TAC) serves as the heart of these local planning efforts. Meeting quarterly, the TAC helps identify regional needs in infrastructure, public education, and safety.

TOP 11 FY2015-2016 Green Hills TAC STIP Projects

Location	Need	County
36 Highway	Bucklin intersection	Linn
36 Highway	Wheeling intersection	Livingston
36 Highway	Curve at Marceline	Linn
Route W	Bridge replacement (Bridge PO202)	Grundy
Highway 10	Raise Highway 10 out of the floodplain	Carroll
Highway 5 Corridor	Upgrade corridor from the Missouri River to Iowa border	Chariton, Linn, Sullivan & Putnam
Highway 13	Resurface and add shoulders from Ray County to Daviess County	Caldwell
Highway 190	Replacement of Bridge P0442 over Clear Creek	Daviess
Highway 13	Replacement of railroad bridge in Polo	Caldwell
Route VV	Relocate VV across northern portion of project area	Sullivan
36 Highway	Turn lane improvements at the new MFA	Caldwell

Core Activities and Services

- *Local, District, and State Planning Meetings
- *Transportation Assistance Program Grants
- *Blueprint for Roadway Safety Coalition
- *Traffic Count Services
- *Traffic Calming Services
- *Road Safety Assessments
- *Highway 65, Highway 5 and Highway 13 Coalition participation

Regional Transportation Plan

- *Plan maintenance
- *Community Sidewalk Assessments
- *Inclusion of FY 2017 - 2018 priorities

Public Education

- *Joint TAC Training
- *4 Quarterly TAC meetings (August, December, March, June)

Traffic-Calming Services

The ValuPro 2012 speed trailer is designed to help communities control speeds at a designated site while simultaneously collecting data related to average speed and vehicle volume. The trailer alerts oncoming drivers to their current speed as related to the posted speed for the roadway. This tool may be particularly useful during large events (county fairs, community meetings, etc.), in school zones, and in areas identified by local law enforcement as prone to speeding.

Professional Development

Workforce Development

Workforce Innovation and Opportunity Act

The Workforce Innovations and Opportunities Act authorizes Workforce Development Programs. As with all forms of government services, it is necessary to evaluate products and services to ensure that they are timely, up to date and valuable to our customers. Over the course of the past year, Green Hills Regional Planning Commission has partnered with Job Center staff to help provide additional services offered to job seekers in the region, adding value to customer visits and strengthening partnerships.

We continue to work with our customers to help them understand the importance of taking the lead in investing in their own futures. We help them learn to make choices that provide or improve employment, reduce or remove the need for public assistance, contribute to financial stability for them and their families, and grow local communities.

We are so grateful to be able to provide these services and programs in our local communities, making a difference one person at a time.

Workforce Statistics

- *82 customers enrolled in WIOA educational program services
- *401 Required Job Search enrollments mandatory for Unemployment Insurance recipients
- *54 Youth Program enrollees
- *12 Summer Job League Program enrollees
- *9 State Parks Youth Corps Program enrollees
- *680 Job Orders listed this program year

Workforce Innovation and Opportunity Act Services

- Provides training services to both low income adults and dislocated workers.
- 28 dislocated workers enrolled in training.
- 53 adults enrolled in training.

Services include but are not limited to: classroom occupational training, on the job training, job readiness workshops, staff-assisted job searches, labor market information, the National Career Readiness Certificate assessment, job matching and referrals to jobs.

Job Center Services

- Help with re-employment services during the initial claim period for unemployment
- Orientation to Job Center services
- Assessment of individual skills
- Provide labor market information to help customers make choices for training and employment
- One-on-one job searching assistance
- Resource equipment available for self-serve
- Training Information and Workforce Innovation and Opportunity Act training grants
- Service referrals for additional unmet needs
- Workshops
- Training opportunities through partner agencies
- Online computer training courseware
- Targeted resumes

Solid Waste Management District

The North Missouri Solid Waste Management District - Region B is the largest district in the State of Missouri, consisting of 11 counties in north central Missouri including Caldwell, Carroll, Chariton, Daviess, Grundy, Harrison, Linn, Livingston, Mercer, Putnam, and Sullivan and their 75 communities. Region B provides a District Grant Program to provide financial assistance to cities, counties, non-profits, and other organizations for the purposes of:

- Developing new or improved programs that will reduce the generation of solid waste,
- Creating new or improving existing markets for recovered materials, and
- Improving the handling of items banned from landfills by Missouri law.

Funds are awarded to sub-grantees for projects that are sustainable, lead to long term diversion, and have maximum impact on waste minimization while creating or sustaining jobs.

Household Hazardous Waste – Appliance – Tire – Electronic Collections

District B uses grant funds from the Missouri Department of Natural Resources each year to collect banned/special items in our region. For 20 years, the North Missouri Solid Waste Management District-B, has been an important part of collecting and recycling household hazardous waste, and banned items. The efforts of the District has prevented these items from being placed in landfills or illegally disposed of throughout rural areas, where many of the banned items would be illegally dumped in ditches, creeks, or on personal property.

Eligible items include computer monitors, televisions, printers, peripherals, appliances, tires, and household hazardous waste including latex paint, oil base paint, varnish, stains, used oil, aerosol cans, herbicides, pesticides, cleaners, acid, household batteries, and lead acid batteries.

DNR Tire Round Up

A DNR Tire Round up was held in Carroll County. This was a great opportunity for residents of the county to dispose of thousands of old tires free of charge.

from 2012 to 2018—
**Missouri Pesticide
 Collection Program**
 collected more than
430,000 lbs
 of
UNWANTED PESTICIDES
 ————— for proper disposal

The Chillicothe event was held on July 15, 2017, and collected 13,106 pounds of pesticide waste from 39 participants and the Bethany event was held on March 24, 2018, and collected 3,360 pounds of pesticide waste from 19 participants. The Mission of the Missouri Pesticide Collection Program is to help protect human health and the environment by collecting and ensuring safe disposal of waste pesticides from Missouri farmers and householders while educating citizens of Missouri on how to properly manage and reduce pesticide waste.

The department's Pesticide Collection Program provides free collection events for farmers and households throughout the state of Missouri to properly dispose of unwanted waste pesticides. The Department of Natural Resources is offering this free opportunity to properly dispose of pesticides, herbicides, rodenticides, insecticides, fungicides, and fertilizers containing herbicides or pesticides. From 2012 to 2018, the Missouri Pesticide Collection Program has conducted 44 events, collecting more than 430,000 pounds of waste pesticide from 1,379 participants.

Special Projects

HAZARD MITIGATION

During FY 2017-2018, GHRPC worked on two Hazard Mitigation plans updates—one for Sullivan County in 2015 and another for Caldwell County in 2016. Sullivan County's update was performed using a new template provided by FEMA. This was not only a first for the RPC, but the first county plan in the State to utilize the template and was accepted by FEMA on its first submission.

Caldwell County's plan, in addition to using the new template, boasts a more comprehensive risk assessment that details man-made and technological hazards in addition to the Natural Hazards outlined in previous years. These hazards include: Attack (Nuclear, Conventional, Chemical and Biological), Civil Disorder, Hazardous Materials Releases, Mass Transportation Incidents, Public Health/Environmental Issues, Special Events, Terrorism, Utility Disruption/Failure, and Electromagnetic Pulse (EMP).

These plans are required by the Federal Emergency Management Agency in order for the local jurisdictions to be eligible for hazard mitigation grant funds through programs like Hazard Mitigation Grant Program (HMGP), Pre-disaster Mitigation (PDM), and SRL (a US Army Corp program that deals with levees and repetitive flood loss).

ENVIRONMENTAL REVIEWS

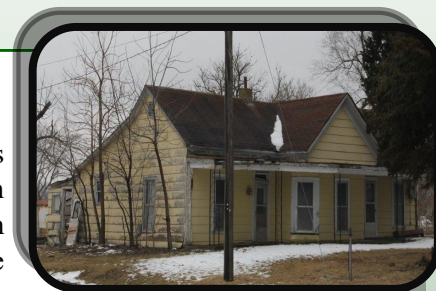

Every project with federal funding requires some level of Environmental Review, most commonly the Environmental Assessment or EA. Although EAs were previously included as part of the administration costs, recent changes at CDBG require environmental reviews to be completed independently. An EA:

- 1) Provides evidence and analysis for determining whether to prepare an Environmental Impact Statement or EIS.
- 2) Aids agency compliance with NEPA when an EIS is not required.
- 3) Facilitates preparation of an EIS when one is necessary.

During FY 2017-2018, GHRPC performed work on Environmental Reviews and/or amendments for all CDBG/USDA funded projects throughout the region.

DEMOLITION GRANTS

Demolition grants help demolish vacant, dilapidated, commercial and residential structures and promote in-fill housing. These grants help cities remove the problem sites and start fresh on code enforcement. This is a voluntary program that reduces eye sores and threats to health and safety while improving the overall appearance of the community. In 2015, grants were awarded to the City of Green Castle for \$66,750.00 to demolish 1 commercial and 11 residential properties with a total project cost of \$84,781.00; and the City of Keytesville for \$210,150.00 to demolish 19 residential and 11 commercial properties with a total project cost of \$259,573.00. These projects were successfully completed and closed during PY 2017-2018.

Green Hills Rural Development, Inc.

GHRDI is the 501(c)3 development subsidiary of the Green Hills Regional Planning Commission. GHRDI offers its status to organizations and initiatives through the region that require a 501(c)3 conduit for IRS deduction purposes. This service saves the organization the costs involved in obtaining their own 501(c)3 and assists in record keeping and fund management. GHRDI is governed by an eleven member Board of Directors comprised of persons from the business and local government sectors. Prospective borrowers are required to present their loan requests to the Board and the members evaluate the merit and approval or denial of the request.

The primary function of GHRDI is the administration of Revolving Loan Funds. Currently, the 501(c)3 manages loan pools seeded by the Department of Commerce/Economic Development Administration, USDA Rural Development, and the Community Development Block Grant/HUD program. Each loan pool has its distinct purpose and is intended to serve as gap financing to assist with the financing needs of new business start-ups or expansions.
